CAREER OBJECTIVE

To achieve a position where I can use my well built technical skills and a reward winning educational background. I aim at utilising my analytical and coding skills that mutually benefits the organisation and helps me move ahead in career. I wish to succeed in all future endeavours of my life.

ACADEMIC QUALIFICATIONS

Chandigarh Engineering College Mohali, PTU <i>B.Tech in IT, CGPA:8.46/10</i>	Mohali <i>July 2018-Current</i>
KK Public School, CBSE <i>Intermediate, Percentage:72%</i>	Muzaffarnagar, UP <i>May 2016-May 2018</i>
Spring Dales Public School, CBSE <i>High School, CGPA:8.6/10</i>	Muzaffarnagar, UP <i>May 2014-May 2016</i>

CERTIFICATIONS

• R Essentials from IBM.	May 2020
• Google Analytics Individual Qualification from Google.	April 2020
• Artificial Intelligence from NASSCOM.	April 2020
• Software Testing from NPTEL IIT Kharagpur.	February 2020
• Machine Learning with Python from Itronix Solution.	June 2019
• The Fundamentals of Digital Marketing from Google.	June 2019

TECHNICAL SKILLS

- **Technical Skills:** C, C++, Java, Python, HTML, Machine Learning, CCNA, IOT, GCP.
- **Database:** MySQL, AWS-EC2, Firebase.
- **Relevant Subjects:** Data Structures and Algorithms, Machine Learning, Neural Networks, Object Oriented Programming.

INTERNSHIPS

Peacock Solar Pvt Ltd. <i>Data Analyst Intern</i>	May 2020-July 2020
<ul style="list-style-type: none">• Worked in advanced data analytics areas such as deep learning, complex statistical data analysis, developmental analysis along with forecasting and optimization methods/models to provide clients with efficient business solutions.• Gained experience on data visualization, machine learning and data mining to solve complex problems.	
Innovative Tech Lab <i>Machine Learning Intern</i>	Jan 2020-July 2020
<ul style="list-style-type: none">• Worked on client-based project for pre and post corona impact on entertainment industry using primary and secondary research.	

PROJECTS

- AI Image Captioning Bot** | *Chandigarh Engineering College* October 2020
- Worked on Flickr Dataset using word embedding and Transfer learning..
 - Implemented CNN and RNN algorithm to predict the captions in the image.
 - Deployed using flask on HEROKU.
- Real State Price Prediction** | *Chandigarh Engineering College* April 2020
- Implemented KNN and Linear Regression model algorithm to predict a particular location's apartment price.
 - Deploy the supervised model on Heroku using AWS-EC2.
 - Provide the consumer with a portal and a hassle-free facility to estimate the price of the apartment for the client / customer.
- ChatVeda- Health Assistant** | *Chandigarh Engineering College* Jan-Feb 2020
- Based on the symptoms they are having, the project aims to help patients infected by diseases.
 - Using exploratory data analysis and predictive modelling methods, along with a medical recommendation, to diagnose the type of disease.
 - Applied word embedding using NLP(Natural Language Processing), created user interface using HTML and CSS.
 - Designed a chat-bot to predict the likelihood of symptom-based diseases.
 - Formed a platform that allows simple and fast scheduling of appointments available.

ACADEMIC ACHIEVEMENTS

- 1st position in 2nd semester in University merit list. March 2019
- 2nd position in 1st semester in University merit list. Feb 2020
- 2nd Runner up in Internal Smart India Hackathon 2020. March 2020
- Solved 400+ coding problems on various competitive coding sites. March 2020
- Secured 5-star coder on HackerRank. March 2020

EXTRA-CURRICULAR ACTIVITIES

- Head Coordinator of IoT Lab in Information Technology department. Sept 2019-Current
- Participated in NASA International Space Apps Challenge. October 2020
- Participated in Fight Corona Ideathon conducted by AICTE. March 2020

HOBBIES/INTERESTS

- Writing poetry
- Reading novels
- Listening Music

PERSONAL INFORMATION

Date of Birth : 14th June 2001

Gender / Marital Status: Male / Single

Language Proficiency: English and Hindi
